

Antibacterial drive disk ORANGE TIGER

Drive disk / drive plate with laser-welded, antibacterial harpoon drive face for driving pads.

GUTMANN QUALITY for a longer service life, best performance and high economic efficiency.

Highlights

- Antibacterial properties with an effectiveness of over 99.9 % against bacteria and other germs
- Patented laser-welded connection of harpoon drive face and carrier leaves no room for even the smallest dirt particles
- Antibacterial plastic formulation with the proven dual row flukes
- Adhesive-free
- Sterilisable, autoclavable
- Highly resistant to chemicals and robust

Anwendungsbereiche

- Predestinated for hygiene-sensitive areas
- For driving all common pads

Technical data

Overall dimension	
Length/Width/Height	≤ 600 mm / ≤ 600 mm / –
Diameter	≤ 600 mm
Body	
Length/Width/Height	–
Diameter	–
Material	–
Colours	Special colours with laser light absorbing (carrier) and translucent (hook coating) properties possible
Shower feed	With/without
Face	
Materials	Laser welded harpoon drive face with dual row flukes
Connection	
Connection	Individual connection to the machine with coupling, adapter or modular system technology, with and without centre lock
