

Disk brushes

Abrasive brush

Abrasive brush for mechanical, abrasive treatment of heavily soiled floors and surfaces.

GUTMANN QUALITY for a longer service life, best performance and high economic efficiency.

Highlights

- With abrasive synthetic fibres (filled with silicon carbide, aluminum oxide Al₂O₃ or diamond)
- Long service life despite abrasive function
- Available in different grit sizes
- Highly smooth run due to balanced body design with highest product quality
- Wear indicator can be integrated

Areas of application

- Wet scrubbing of heavily soiled floors and surfaces, polishing, grinding
- Hard floors, tiles and safety floors
- Elastic floors
- Structured floors or Pirelli floors, uneven floors and surfaces

Technical data

Overall dimension

Length/Width/Height	–
Diameter	≤ 600 mm

Body

Length/Width/Height	–
Diameter	≤ 600 mm
Material	Injection moulded polypropylene body
Colours	All basic colours, as well as many common colours, special colours possible
Shower feed	With/without

Fill

Fill Materials	Abrasive synthetic fibres (filled with silicon carbide, aluminum oxide Al ₂ O ₃ or diamond)
Density of brush pattern	Light, medium, dense
Brush pattern	Flatly spread or segmented
Properties	Abrasive
Colours	Grey, other colours available on request

Connection

Connection	Individual connection to the machine with coupling, adapter or modular system technology
