

Disk brushes

Scrubbing brush

Scrubbing brush for mechanical and professional floor and surface cleaning.

GUTMANN QUALITY for a longer service life, best performance and high economic efficiency.

Highlights

- Highly smooth run due to balanced body design and optimised fill with highest product quality
- High self-cleaning effect
- Perfectly matched to the respective machine
- Consistent quality due to excellent mechanical properties
- Acknowledged cost-effectiveness due to long service life
- Wear indicator can be integrated

Areas of application

- Wet scrubbing (soft, medium, hard)
- Hard surfaces, tiles and safety floors
- Elastic floors
- Structured floors such as stone carpets or Pirelli floors, uneven floors and surfaces

Technical data

Overall dimension	
Length/Width/Height	–
Diameter	≤ 600 mm
Body	
Length/Width/Height	–
Diameter	≤ 600 mm
Material	Injection moulded polypropylene body
Colours	All basic colours, as well as many common colors, special colours possible
Shower feed	With/without
Fill	
Fill Materials	PP, PA6, PA6.6, PA6.10, PA6.12, PET, PBT, antistatic materials, conductive synthetic fibres, abrasive synthetic fibres (filled with SiC, aluminum oxide Al ₂ O ₃ or diamond dust), variety of animal hair and bristles as well as plant fibres, wire bristles (brass, steel)
Density of brush pattern	Light, medium, dense
Brush pattern	Up to 3 different fills flatly spread or in segments
Properties	Soft, medium, hard
Colours	All common colours, special colours possible
Connection	
Connection	Individual connection to the machine with coupling, adapter or modular system technology
