

Padrolls

Rollers with textile coverings

Padrolls for a improves the removal of dirt. Especially for uneven, textured floors and joints.

GUTMANN QUALITY for a longer service life, best performance and high economic efficiency.

Highlights

- Suitable for high speeds (around 1000 rpm)
- Extremely smooth run due to balanced body design and highest production quality
- Optimal cleaning performance due to high linear load
- Matched linings for optimal cleaning

Areas of application

- For perfect, gentle wet cleaning

Technical data

Overall dimension

Length/Width/Height	≤ 1200 mm / - / -
Diameter	≤ 400 mm

Body

Length/Width/Height	-
Diameter	-
Material	Hollow rods or injection-moulded bodies made of common, mostly reinforced thermoplastics such as PS polystyrenes , ABS acrylonitrile-butadiene-styrene copolymers, PA polyamides, POM polyoxymethylenes/polyacetals
Colours	All basic colours, as well as many common colours, special colours possible

Fill

Fill Materials	Textile coverings
Colours	Depending on the covering

Connection

Connection	Integrated bearing, external bearing, positive drive, internal drive
