

Sweeping roller brushes

Indoor and outdoor

Sweeping roller brushes with a highly smooth run due to balanced body design and highest product quality.

GUTMANN QUALITY for a longer service life, best performance and high economic efficiency.

Highlights

- Perfectly matched to machine and application
- Highly smooth run due to balanced body design
- Optimal sweeping performance due to row sequencing
- Combination of fill types for coarse and fine dirt
- Long service life due to high-quality fill types

Areas of application

- Sweeping machines
- Automatic sweepers
- Sweeping devices
- Sweeping vehicles

Technical data

Gesamtmaß

Overall dimension	1200 mm / - / -
Diameter	≤ 400 mm

Body

Diameter	≤ 250 mm
Wall thickness	6 - 20 mm
Material Outdoor	PP, PA6, PA6.6, PA6.10, PA6.12, PET, PBT, antistatic materials, conductive synthetic fibres, abrasive synthetic fibres (filled with SiC, aluminum oxide Al ₂ O ₃ or diamond), variety of animal hair and bristles as well as plant fibres, wire bristles (brass, steel)
Material Indoor	PP, PA6, PA6.6, PA6.10, PA6.12, PET, PBT, antistatic materials, wire bristles (brass, steel)
Colours	All basic colours, as well as many common colours, special colours possible

Fill

Fill Materials	PP, PA6, PA6.6, PA6.10, PA6.12, PET, PBT, antistatic materials, wire bristles (brass, steel)
Density of brush pattern	Light, medium
Brush pattern	Linear, spiral, single row, double row, chevron, W-shaped, double helix, zig-zag, segmented
Properties	Soft, medium, hard
Colours	All common colours, special colours possible

Connection

Connection	Integrated bearing, external bearing, positive drive, belt drive, internal drive
